Index to Volume 51 of MAYO CLINIC PROCEEDINGS

Abnormalities of immunology: immunologic mechanisms in systemic vasculitis, 511
Acid, ricinoleic (castor oil), alters intestinal surface structure; scanning electron-microscopic study, 6
ACTH and cortisone, behind the scenes with, 471
Adenopathy: 55° oblique hilar tomography, 89
  pulmonary involvement by histiocytosis X in pediatric age group, 542
Adrenal cortical hormones: intrasynovial injection of steroids; uses and abuses, 655
Aflatoxins, liver, and Reye-Johnson syndrome, 48
Aggregation, platelet, in refractory anemia and myelomonocytic leukemia, ultrastructure of. II. Individual platelet abnormalities; thrombasthenia-like platelets, surface defects, and dissociation phenomena, 443
  ultrastructure of platelet aggregation in refractory anemia and myelomonocytic leukemia. I. Ultrastructure of aggregation in normal controls and general defects in refractory anemia and myelomonocytic leukemia, 379
Akwari OE, 223
Alcohol and calories; nutrition note, 88
Alexander Albert; tribute, 605
Alimentation: total parenteral nutrition in infants and children, 647
Alonso C, 607
Alpha$_1$-antitrypsin phenotypes in chronic active liver disease and primary biliary cirrhosis, 286
Alumina: further study on two-column plasma catecholamine assay, 112
Amaurosis fugax: bypass surgery for vascular disease of carotid system, 677
Amenorrhea and infertility, nutritional; endocrine studies during the refeeding of young women with, 607
Amino acids: protein metabolism in black bear before and during hibernation, 716
Amyotrophic lateral sclerosis, patient resistance and prognosis, 537
Analgesia, stimulation-produced, 28
Anastomosis: neurovascular microsurgery; model for laboratory investigation and development of technical skills, 301
"Anatomic" repair of transposition of great vessels with ventricular septal defect and reconstruction of superior vena cava-right atrial continuity; report of case, 163
Anderson CF, 660
Anemia, incidence of iron deficiency, in patients with large diaphragmatic hernia; controlled study, 767
Anemia, pernicious, electroencephalogram in, 281
Angina pectoris, one-year graduated exercise program for men with; evaluation by physiologic studies and coronary arteriography, 231
Angioimmunoblastic lymphadenopathy, 273
Annegers JF, 263
Anomalies, congenital: sequestration of lung in children, 578
Anorexia nervosa: treatment of eating disorders, 266
Antibiotics: pili, plasmids, and microbial virulence, 3
Anticoagulants: clinically suspect pulmonary embolism after vein stripping, 77
Antidepressants: low back pain patients in psychiatric population, 57
Aortic valve disease: unusual case of idiopathic hypertrophic subaortic stenosis, 159
Arterial insufficiency of upper extremity, chronic, 180
Arteriovenous maltormations, spinal cord, diagnosis and natural history of, 637
Arteritis, temporal, skip lesions in, 504
Arthrography and physical examination; comparison with ultrasound evaluation of the popliteal space, 498
Artificial genitourinary sphincter, implantable, in management of total urinary incontinence, 341
Assisted ventilation: neonatal pneumopericardium, 101
Asymptomatic women, vaginal flora in, 557
Atherosclerosis: role of deep femoral artery in revascularization of lower extremity, 209
Audit: quality-of-care assessment; outpatient management of acute bacterial cystitis as model, 307
Autohypnosis: who responds to sugar pills?, 96
Autoimmunity and immunoregulation, 479
Autologous blood transfusion, 723
Autophagy: ultrastructural cytochemistry of platelets and megakaryocytes in carcinoid syndrome, 585

Bacteria: pili, plasmids, and microbial virulence, 3
  vaginal flora in asymptomatic women, 557
Bacterial cystitis, as model of outpatient management; quality-of-care assessment, 307
Baker JW, 31
Barrett DM, 351
Bear, black, protein metabolism before and during hibernation, 716
Behavior modification: program for managing chronic pain. I. Program description and characteristics of patients, 401
  program for managing chronic pain. II. Short-term results, 409
Behind the scenes with cortisone and ACTH, 471
Beitins IZ, 607
Benign tumors: insulinoma; clinical and diagnostic features of 60 consecutive cases, 417
Benign unoperated gastric ulcer, gastrocolic fistula complicating; report of four cases and review of literature, 223
Bernatz PE, 180, 209
Beta-lactamases: in vitro spectrum of cephalosporins, 237
Bile acid kinetics in man, noninvasive technique for determining; sampling intestinal content with sequestering capsule, 171
Bladder disorder: psychogenic urinary retention in women, 351
Bladder retraining; an organized program, 367
Bleeding: massive bleeding from ruptured metastatic hepatic melanoma treated by hepatic lobectomy; case report and review of literature, 167
Blennorrhea, inclusion; case report, 574
Blood: metronidazole (Flagyl) and warfarin; significant drug interaction, 782
  platelet granulopathy; new morphologic feature in preleukemia and myelomonocytic leukemia; light microscopy and ultrastructural morphology and cytochemistry, 452
Blood-air gas transfer, abnormal, fine structural morphometry of diffuse lung diseases with, 42
Blood disease: spectrum of von Willebrand's disease revisited, 35
Blood flow, limb, in newborn infant, volume-displacement plethysmograph to measure, 430
Blood gases: neonatal pneumopericardium, 101
Blood in stools: Hemoccult stool tests; false-negative results due to storage of specimens, 548
Blood tests: further study on two-column plasma catecholamine assay, 112
Blood transfusion, autologous, 723
Blume WT, 107
Body procedures, mandibular, review; orthognathic surgery, 117
Bone disease: management and prognosis of multiple myeloma, 751

Books by Mayo Clinic authors; reviews:
The Immune System of Secretions, by T. B. Tomasi, Jr. (reviewed by P. L. Ogra), 594
The Mayo Clinic Renal Diet Cookbook, by J. D. Margie, C. F. Anderson, R. A. Nelson, and J. C. Hunt (reviewed by D. T. Erwin), 393
Motor Speech Disorders, by F. L. Darley, A. E. Aronson, and J. R. Brown (reviewed by D. D. Daly), 251
Veins and Their Control, by J. T. Shepherd and P. M. Vanhoutte (reviewed by D. F. Bohr), 200
Bounds JV Jr, 176
Bowie EJW, 35
Boyarsky S, 357
Brachial artery: chronic arterial insufficiency of upper extremity, 180
Bradley WE, 329, 346
Breast cancer and Hashimoto's thyroiditis, 263
Breast surgery: primary surgical treatment of carcinoma of breast; changing trend toward modified radical mastectomy, 433
Bronchogenic carcinomas, human, soluble proteins of, 19
Bronchopulmonary system: sequestration of lung in children, 578
Brown AL Jr, 42, 697
Brown LR, 89
Bruch H, 266
Bryan RS, 498
Brzica SM Jr, 723
Bypass surgery: for vascular disease of carotid system, 677
role of deep femoral artery in revascularization of lower extremity, 209

Calories and alcohol; nutrition note, 88
Cameron AJ, 767
Campbell RJ, 504
Cancer: Hashimoto's thyroiditis and breast cancer, 263
Cancer, hepatic: massive bleeding from ruptured metastatic hepatic melanoma treated by hepatic lobectomy; case report and review of literature, 167
Carcinoid syndrome, ultrastructural cytochemistry of platelets and megakaryocytes in, 585
Carcinoma of breast, primary surgical treatment of; changing trend toward modified radical mastectomy, 433
Carcinomas, soluble proteins of human bronchogenic, 19
Cardiac surgery: reconstruction of superior vena cava-right atrial continuity and "anatomic" repair of transposition of great vessels with ventricular septal defect; report of case, 163
Cardiomyopathy: endomyocardiopathy with eosinophilia, 697
Carlson RA, 542
Carney JA, 504
Carotid system, bypass surgery for vascular disease of, 677
Carpenter JR, 498
Cassan SM, 42
Castile RG, 155
Castor oil: ricinoleic acid effects on rabbit intestine; ultrastructural study, 569
Catabolism: protein metabolism in black bear before and during hibernation, 716
Catecholamine assay, further study on two-column plasma, 112
Central nervous system: generalized sharp and slow wave and electrodecremental seizure pattern in subacute sclerosing panencephalitis, 107
Cephalosporins, in vitro spectrum, 237

Cerebral artery bypass: neurovascular microsurgery; model for laboratory investigation and development of technical skills, 301
Cerebral dysfunction: electroencephalogram in pernicious anemia, 281
Cerebrospinal fluid activity of growth hormone, suprasellar extension of tumor associated with increased, 412
Chang SCS, 621
Chaves-Carballo E, 48, 770
Chemotherapy: angioimmunoblastic lymphadenopathy, 273
management and prognosis of multiple myeloma, 751
Chesebro JH, 313
Childhood neoplasms, epidemiology of primary intracranial; population study, 51
Chlamydia: inclusion blennorrhea; case report, 574
Cholesterol: serum lipids in chronic renal failure, 660
Cholestyramine: sampling intestinal content with sequestering capsule; noninvasive technique for determining bile acid kinetics in man, 171
Christine BW, 51
Chronic arterial insufficiency of upper extremity, 180
Chronic pain, program for managing: I. Program description and characteristics of patients, 401
II. Short-term results, 409
C_{IN} and C_{PAH} in healthy donors before and after nephrectomy; normal renal function, 296
Cirrhosis: alpha$_1$-antitrypsin phenotypes in chronic active liver disease and primary biliary cirrhosis, 286
Clinical observations on thyrotoxicosis coexisting with myotonic dystrophy, 176
Clinically suspect pulmonary embolism after vein stripping, 77
Closed-loop implants: genitourinary prosthetics of present and future, 346
Coates HLC, 77
Coles DT, 777
Collateral circulation: one-year graduated exercise program for men with angina pectoris; evaluation by physiologic studies and coronary arteriography, 231
Complement system: hypocomplementemic ear effusion in relapsing polychondritis, 495
Compression, passive urethral, with silicone gel prosthesis for treatment of male urinary incontinence, 373
Congenital anomalies: sequestration of lung in children, 578
Conjunctivitis: spastic eversion of upper eyelids, 85
Conn DL, 216, 511
Contraceptives: hormones and preantral follicle growth in women, 617
Contracture, ischemic, of left ventricle ("stone heart"), ultrastructure of, 785
Contrast echocardiography, detecting intrapulmonary right-to-left shunt with; observations in patient with diffuse pulmonary arteriovenous fistulas, 81
Conversion: persistent nausea without organic cause, 257
Conversion personality: low back pain patients in psychiatric population, 57
Cooperman AM, 167
COPD: host factors in chronic obstructive pulmonary disease in an upper midwest rural community; design, case selection, and clinical characteristics in matched-pair study, 709
Coronary artery disease: echocardiographic observations in patient with acute myocardial infarction with nondiagnostic electrocardiogram, 313

Cortisone and ACTH, behind the scenes with, 471
Cor triatriatum; echocardiographic findings, 289
Coulam CB, 557
Coumarin: metronidazole (Flagyl) and warfarin; significant drug interaction, 782
Current status of urethral pressure profile as urodynamic test, 357
Cutaneous and systemic vasculitis, skin fibrinolytic activity in, 216
Cyanosis in neonate, utilization of echocardiography in differential diagnosis of, 143
Cyclophosphamide versus procarbazine hydrochloride in donor pretreatment in cadaveric renal transplantation, 693
Cystitis, acute bacterial, as model of outpatient management; quality-of-care assessment, 307
Cystometry and sphincter electromyography, 329

Dale AJD, 417
Daniel Turner, first British dermatologist, 62
Davis DL, 85
Deering NG, 624
Deficiency anemia, iron, incidence in patients with large diaphragmatic hernia; controlled study, 767
Deformities, mandibular: orthognathic surgery; review of mandibular body procedures, 117
Dense bodies: ultrastructural cytochemistry of platelets and megakaryocytes in carcinoid syndrome, 585
Depressive personality: low back pain patients in psychiatric population, 57
DeRemee RA, 89, 777
Detecting intrapulmonary right-to-left shunt with contrast echocardiography; observations in patient with diffuse pulmonary arteriovenous fistulas, 81
Development of radioimmunoassays for prednisone and prednisolone; application to studies of hepatic metabolism of prednisone, 761
Diagnosis and natural history of spinal cord arteriovenous malformations, 637
Diagnostic roentgenology: bladder retraining; an organized program, 367
Diarrhea: ricinoleic acid effects on rabbit intestine; ultrastructural study, 569
Dickson ER, 286
Diet: nutrition note; alcohol and calories, 88
  treatment of eating disorders, 266
Dieting: endocrine studies during the refeeding of young women with nutritional amenorrhea and infertility, 607

Distention pressure: current status of urethral pressure profile as urodynamic test, 357
Divertie MB, 42
Donadio JV Jr, 484
Dong L, 430
Drink: nutrition note; alcohol and calories, 88
Drug interaction, significant; metronidazole (Flagyl) and warfarin, 782
Drugs: behind the scenes with cortisone and ACTH, 471
  program for managing chronic pain. II. Short-term results, 409
  progressive lupus glomerulonephritis; treatment with prednisone and combined prednisone and cyclophosphamide, 484
  who responds to sugar pills?, 96
Duodenal ulcer: gastrocolic fistula complicating benign unoperated gastric ulcer; report of four cases and review of literature, 223
DuShane program: elevated plasma antidiuretic hormone levels in status asthmaticus, 31
Dyskinesis: echocardiographic observations in patient with acute myocardial infarction with nondiagnostic electrocardiogram, 313
Dystrophy, myotonic, clinical observations on thyrotoxicosis coexisting with, 176

Ear effusion, hypocomplementemic, in relapsing polychondritis, 495
Eating disorders, treatment of, 266
Echocardiographic findings in cor triatriatum, 289
Echocardiographic observations, further, in pericardial effusion, 13
Echocardiographic observations in patient with acute myocardial infarction with nondiagnostic electrocardiogram, 313
Echocardiography, contrast, detecting intrapulmonary right-to-left shunt with; observations in patient with diffuse pulmonary arteriovenous fistulas, 81
Echocardiography: unusual case of idiopathic hypertrophic subaortic stenosis, 159
Echocardiography, utilization in differential diagnosis of cyanosis in neonate, 143
Edis AJ, 223
Editorial: pili, plasmids, and microbial virulence, 3
Electrodecremental seizure pattern and generalized sharp and slow wave in subacute sclerosing panencephalitis, 107
Electroencephalogram in pernicious anemia, 281
Electromyography: patient resistance and prognosis in amyotrophic lateral sclerosis, 537
Electromyography, sphincter, and cystometry, 329
Electron microscopy: gluconeogenesis in isolated rat hepatic parenchymal cells. IX. Differential effects of glucagon and epinephrine on phosphofructokinase and pyruvate kinase, 624
  ultrastructural cytochemistry of platelets and megakaryocytes in carcinoid syndrome, 585
Elevated plasma antidiuretic hormone levels in status asthmaticus, 31

Emphysema: host factors in chronic obstructive pulmonary disease in an upper midwest rural community; design, case selection, and clinical characteristics in matched-pair study, 709
Encephalopathy: liver aflatoxins and Reye-Johnson syndrome, 48
Encephalopathy, acute, without fatty liver, hepatic lipids in Reye-Johnson syndrome and, 770
Endarterectomy: chronic arterial insufficiency of upper extremity, 180
Endocrine neoplasia: insulinoma; clinical and diagnostic features of 60 consecutive cases, 417
Endocrine studies during the refeeding of young women with nutritional amenorrhea and infertility, 607
Endocrinology: further study on two-column plasma catecholamine assay, 112
Endocrinology symposium: endocrine studies during the refeeding of young women with nutritional amenorrhea and infertility, 607
  gluconeogenesis in isolated rat hepatic parenchymal cells. IX. Differential effects of glucagon and epinephrine on phosphofructokinase and pyruvate kinase, 624
  hormones and preantral follicle growth in women, 617
  preface, 606
  some questions related to melanocyte-stimulating hormone, 632
  time study of effects of pregnant mare's serum gonadotropin on surface characteristics of granulosa cells in rat ovaries, 621
  tribute; Alexander Albert, 605
Endomyocardiopathy with eosinophilia, 697
Eosinophilic granuloma: pulmonary involvement by histiocytosis X in pediatric age group, 542
Eosinophils: angioimmunoblastic lymphadenopathy, 273
